

Manish Kumar Sharma

Senior Manager / Senior Principal Software Engineer

(+91) 874 797 2015

manishkumarsharma24@gmail.com

PROFESSIONAL SUMMARY

- 22+ years of experience in software design, development, and architecture - spanning hands-on development through technical leadership of enterprise Java/J2EE and cloud-native microservice applications.
- 4+ years as Expert Software Engineer on **Loan IQ** - the world's leading syndicated commercial-lending platform, deployed at 50+ global banks.
- Nearly 10 years in **Fleet & Dispatch Management** (Waste Management · Manhattan Associates), building large-scale operational platforms.
- 3+ years onsite in the UK with British Telecom; extensive direct client interaction across Government and Banking domains.
- Proven leader across full SDLC - requirements, architecture, Agile delivery, team mentoring, and production support.

TECHNICAL SKILLS

Core Languages	Java · J2EE · SQL · XML · UML
Frameworks	Spring Boot · Spring MVC · Microservices · RESTful Web Services · Hibernate · JPA · iBatis
Messaging, Streaming & Search	Kafka · RabbitMQ · Elasticsearch · JMS · Kinesis Stream
Cloud & DevOps	AWS (EC2, S3, DynamoDB, CloudWatch, CloudFormation) · Docker · Kubernetes · Jenkins · Splunk
AI & Productivity	Claude (Anthropic) · Windsurf · AI Agents
Databases	Oracle · MySQL
Testing & Quality	JUnit · TestNG
Build & SCM	Maven · Ant · Git · Bitbucket · Subversion
IDEs & OS	IntelliJ IDEA · Eclipse · Mac · Linux · Windows

EMPLOYMENT HISTORY

Senior Principal SWE / Senior Manager Manhattan Associates	Oct 2020 - Jun 2026
Senior Technical Architect WHISHWORKS	Nov 2019 - Apr 2020
Principal Software Engineer WM Logistics India	Jul 2016 - Oct 2019
Expert Software Engineer Misys (now Finastra)	Nov 2011 - Mar 2016
Senior Developer / Module Leader MASTEK	Feb 2006 - Oct 2011
Assistant System Engineer Tata Consultancy Services	Oct 2003 - Feb 2006

EDUCATION

B.E. Computer Science · Institute of Engineering & Technology, DAVV, Indore (M.P.)

KEY PROJECTS

Manhattan Active Dispatch - Fleet Management Platform

Oct 2020 - Jun 2026

Senior Principal SWE / Senior Manager · Manhattan Associates · Team size: 15

Enterprise SaaS product managing the end-to-end lifecycle of Driver, Tractor, and Trailer resources for large-scale fleet operations - trip dispatching, ETA computation, and real-time resource assignment across multi-shipment trips.

Tech: Java · Spring Boot · JPA · RabbitMQ · Elasticsearch · Kubernetes · Docker

- Led a team of 15 engineers - collaborated with Product Management to define epics, provide preliminary estimates, and deliver High-Level Designs (HLD) for each initiative.
- Reviewed team-produced Low-Level Designs (LLD), provided architectural inputs, and ensured alignment with product goals and non-functional requirements before implementation.
- Worked as an individual contributor alongside the team, writing and delivering production code for new features and critical platform improvements.
- Conducted thorough code reviews to verify requirement compliance, prevent regressions, and validate performance and usability standards.
- Partnered with the production support team to investigate and resolve live issues, providing engineering expertise to minimise customer impact.

Maruti Suzuki - Enterprise Integration Platform (ESB)

Nov 2019 - Apr 2020

Senior Technical Architect · WHISHWORKS · Team size: 10

Cloud-based ESB connecting MSIL's core enterprise systems with Salesforce via Microservice Architecture, with dedicated REST and Batch services per business domain.

Tech: Java · Spring Boot · Microservices · Docker · Kubernetes · Salesforce · Jenkins · Splunk

- Architected the integration layer end-to-end - produced HLD and LLD documents aligned to MSIL and Salesforce stakeholder requirements.
- Worked closely with Salesforce teams to define integration touch points, data volumes, integration patterns (synchronous real-time API vs. async batch), and end-to-end data flow design.
- Implemented key integration services as individual contributor, working alongside the team to deliver production-ready microservices.

Waste Management - Operational Control System (OCS)

Jul 2016 - Oct 2019

Principal Software Engineer · WM Logistics India · Team size: 20

Modernised the operational platform for North America's largest waste-management company - 26,000-vehicle fleet, 21M+ customers - migrating monolithic services to an AWS-hosted Microservice Architecture.

Tech: Java · AWS · Spring Boot · Microservices · iBatis · Angular · Docker · Kubernetes · Splunk

- Designed and implemented new microservices on AWS (EC2, S3, DynamoDB, Kinesis), enabling independent service scaling and improving throughput during peak operational cycles.
- Primary resolver for P1 production incidents, consistently meeting SLA windows while mentoring junior engineers on AWS and microservice best practices.

Loan IQ - World's Leading Syndicated-Lending Platform

Nov 2011 - Mar 2016

Expert Software Engineer · Misys (now Finastra) · Team size: 10

Loan IQ serves 50+ global banks as the industry-standard syndicated-lending platform. Joined as an Expert Software Engineer and made consistent high-impact contributions to the core product over 4+ years.

Tech: Java · Spring · Hibernate · SWT · AngularJS · JMS · Talend · SOAP & REST · Tomcat

- Worked as an individual contributor and developer to deliver many customer-critical epics on the core lending engine, including deal booking, interest calculations, fee processing, and SWIFT messaging.
- Provided end-to-end designs and code reviews for major feature releases, ensuring quality and alignment with complex financial domain requirements.

ADDITIONAL PROJECTS

Registers of Scotland · British Telecom UK · 2006-2011

Senior Developer on Scottish Government's land registration system - EJB/Spring/Hibernate services, JMS messaging, SOAP integration (30-member team, 5-year engagement).

GE Infrastructure Suite · TCS · 2003-2006

Developer on four GE projects: Sales Portal (SAP integration), RMD (diagnostic reporting), RCM (corrosion monitoring), eNPI (product approval workflow).
