

MANISH KUMAR SHARMA

Principal Software Engineer / Senior Manager (Technical)

manishkumarsharma24@gmail.com | +91-8747972015

PROFESSIONAL SUMMARY

- 22+ years of experience in software design, development, and architecture - spanning hands-on development through technical leadership of enterprise Java/J2EE and cloud-native microservice applications.
- 4+ years as Expert Software Engineer on Loan IQ - the world's leading syndicated commercial-lending platform, deployed at 50+ global banks.
- Nearly 10 years in Fleet & Dispatch Management (Waste Management - Manhattan Associates), building large-scale operational platforms.
- 3+ years onsite in the UK with British Telecom; extensive direct client interaction across Government and Banking domains.
- Proven leader across full SDLC - requirements, architecture, Agile delivery, team mentoring, and production support.

TECHNICAL SKILLS

Core Languages	Java - J2EE - SQL - XML - UML
Frameworks	Spring Boot - Spring MVC - Microservices - RESTful Web Services - Hibernate - JPA - iBatis
Messaging, Streaming & Search	Kafka - RabbitMQ - Elasticsearch - JMS - Kinesis Stream-Kafka
Cloud & DevOps	AWS (EC2, S3, DynamoDB, CloudWatch, CloudFormation) - Docker - Kubernetes - Jenkins - Splunk
AI & Productivity	Claude (Anthropic) - Windsurf - AI Agents
Databases	Oracle - MySQL
Testing & Quality	JUnit - TestNG
Build & SCM	Maven - Ant - Git - Bitbucket - Subversion
IDEs & OS	IntelliJ IDEA - Eclipse - Mac - Linux - Windows

EMPLOYMENT HISTORY

Oct 2020 - Jun 2026	Principal Software Engineer / Senior Manager (Technical — Solution Architecture & Engineering Leadership)	Manhattan Associates
Nov 2019 - Apr 2020	Senior Technical Architect	Whishworks (now Coforge)
Jul 2016 - Oct 2019	Principal Software Engineer	WM Logistics India
Nov 2011 - Mar 2016	Expert Software Engineer	Misys (now Finastra)

Feb 2006 - Oct 2011	Senior Developer / Module Leader	MASTEK
Oct 2003 - Feb 2006	Assistant System Engineer	Tata Consultancy Services

KEY PROJECTS

Manhattan Active Dispatch - Fleet Management Platform

Principal Software Engineer / Senior Manager (Technical) - Manhattan Associates - Oct 2020-Jun 2026 - Team: 15

Tech: Java - Spring Boot - JPA - RabbitMQ - Elasticsearch - Kubernetes - Docker

- Led a team of 15 engineers - collaborated with Product Management to define epics, provide preliminary estimates, and deliver High-Level Designs (HLD) for each initiative.
- Reviewed team-produced Low-Level Designs (LLD), provided architectural inputs, and ensured alignment with product goals and non-functional requirements before implementation.
- Worked as individual contributor alongside the team, writing and delivering production code for new features and critical platform improvements.
- Conducted thorough code reviews to verify requirement compliance, prevent regressions, and validate performance and usability standards.
- Partnered with production support team to investigate and resolve live issues, providing engineering expertise to minimise customer impact.

Maruti Suzuki - Enterprise Integration Platform (ESB)

Senior Technical Architect - Whishworks - Nov 2019-Apr 2020 - Team: 10

Tech: Java - Spring Boot - Microservices - Docker - Kubernetes - Salesforce - Jenkins - Splunk

- Architected the integration layer end-to-end - produced HLD and LLD documents aligned to MSIL and Salesforce stakeholder requirements.
- Worked closely with Salesforce teams to define integration touch points, data volumes, and integration patterns (synchronous real-time API vs async batch).
- Implemented key integration services as individual contributor, delivering production-ready microservices.

Waste Management - Operational Control System (OCS)

Principal Software Engineer - WM Logistics India - Jul 2016-Oct 2019 - Team: 20

Tech: Java - AWS - Spring Boot - Microservices - iBatis - Angular - Docker - Kubernetes - Splunk

- Designed and implemented microservices on AWS (EC2, S3, DynamoDB, Kinesis), enabling independent scaling and improving throughput during peak operational cycles.
- Primary resolver for P1 production incidents, consistently meeting SLA windows while mentoring junior engineers on AWS and microservice best practices.

Loan IQ - World's Leading Syndicated-Lending Platform

Expert Software Engineer - Misys (now Finastra) - Nov 2011-Mar 2016 - Team: 10

Tech: Java - Spring - Hibernate - SWT - AngularJS - JMS - Talend - SOAP & REST - Tomcat

- Delivered customer-critical epics on the core lending engine, including deal booking, interest calculations, fee processing, and SWIFT messaging.
- Provided end-to-end designs and code reviews for major feature releases, ensuring quality and alignment with complex financial domain requirements.

ADDITIONAL PROJECTS

- Registers of Scotland - British Telecom UK - 2006-2011: Senior Developer on Scottish Government land registration system. EJB/Spring/Hibernate services, JMS messaging, SOAP integration (30-member team, 5-year engagement).
- GE Infrastructure Suite - TCS - 2003-2006: Developer on four GE projects: Sales Portal (SAP integration), RMD (diagnostic reporting), RCM (corrosion monitoring), eNPI (product approval workflow).

EDUCATION

B.E. Computer Science

Institute of Engineering & Technology, DAVV, Indore (M.P.) | 2003
